

ADABoy Litepaper Deck

ADABoy - Get Cardano-
Rewards just by holding.

Crypto is a Wild Wild West!

- Crypto is full of uncertainties
- Current BSC market are full of scams/rugs
- Holders are not properly rewarded

The Problem

Crypto is full of Uncertainties

Crypto is full of uncertainties and you don't really know what you're getting into and it's hard to trust anyone.

FUNDS are not SAFU

Current BSC market is full of scams/rugs and it's a tad scary to invest.

Hodlers Not Properly Rewarded

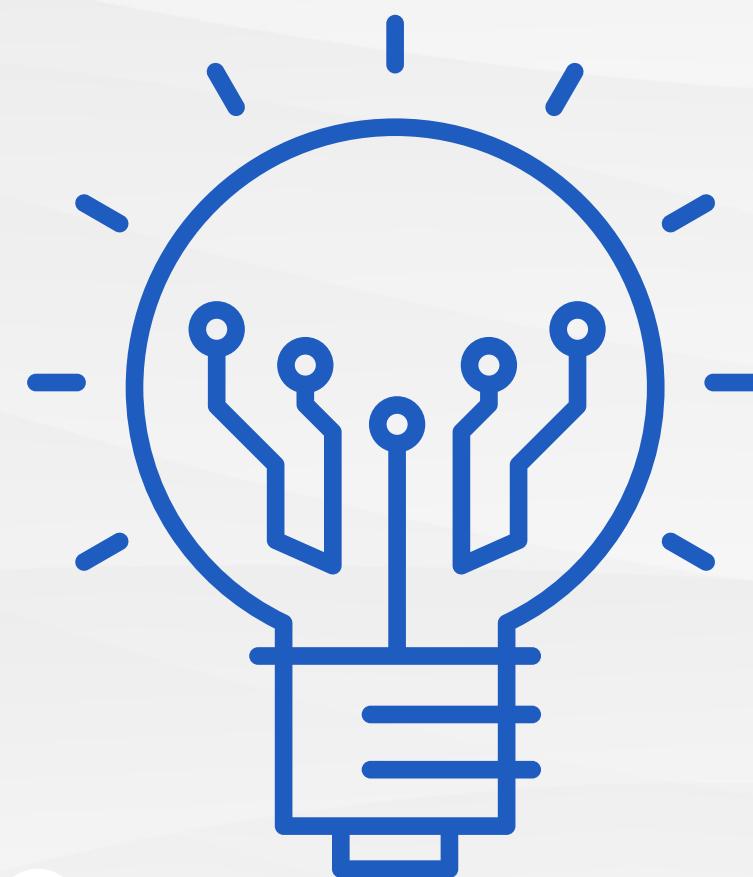

No ROI for investors as they just usually lose their investments and don't get any rewards.

THE UTOPIA

ADABoy Solution:

Trusted by Community

We've already built a community that has stayed with us through our lowest with Fetus Doge. And we would like to take care of that TRUST.

Funds are SAFU

We will be as transparent as possible by publishing all FUD questions on our website. Liquidity will be locked thru DXSale

ADA Rewards

Holders will be heavily rewarded as they can receive ADA rewards as well as be able to stake them and more usecases later announced.

introducing ADABoy

With ADABoy, users can get passive ADA rewards just by buying ADABoy! Yes no need to do anything else!

Timing

On Trend

Currently, reward tokens have really been doing good and we believe that ADABoy has the name, team, and tokenomics ready to succeed!

Ripe for Success

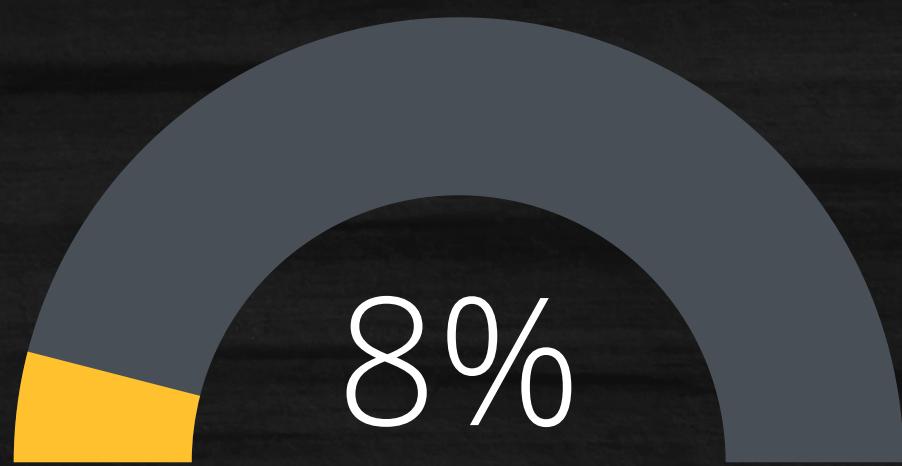

We have faced challenges in our previous projects and we will all apply the learnings we had there to succeed in ADABoy

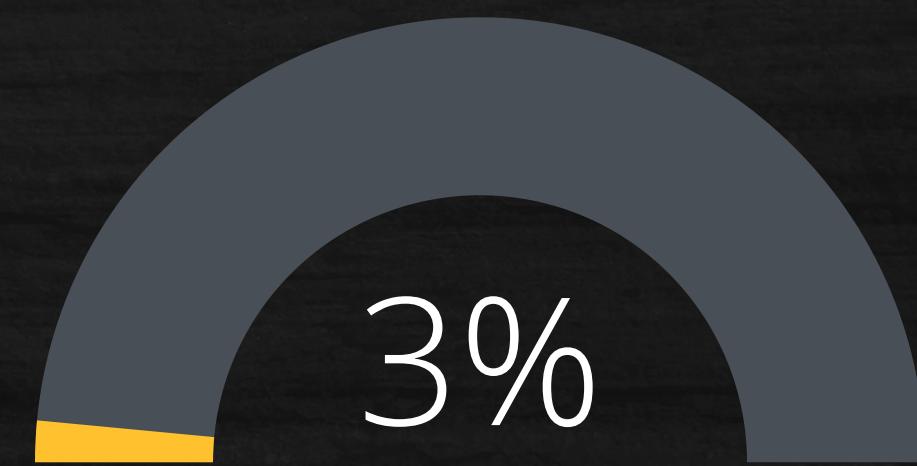

Tookenomics

Total Supply: 100 B

Tax Fee: 12% (Buy) + 1% Sell Fee

Target Market

Existing BSC Users

Initially it will be Binance Smart Chain Network users but we plan to do a crossover on other markets

Other Blockchain

We plan to expand on other Blockchains such as ERC20 and Cardano.

Competitor Approach

Planning

We have everything planned although we are flexible enough to adjust to whatever may come before us.

Marketing

We have learned marketing the hard way and we plan to apply all the learnings, like using analytics to make data driven decisions.

Speed Balance

It's a game between going fast or slow and our aim is to find the balance in between

Use Cases

Auto ADA (Good as Cash)

- Automatically receive Binance-PEG ADA to your wallet without doing anything.

ADABoy/ADA Staking

Be able to stake your ADABoy or ADA.
Staking on our future Dapp site.

Gaming - Lottery

Allows you to use ADABoy tokens to play our planned lottery-like game and earn pools of prizes.

ADABoy Team:

Dedicated Team

We are composed of 6 core group and have added 5 more to our team.

But our greatest asset is the Community. Without them, ADABoy is nothing.

Future Roadmap

What are your next steps and goals? How much support do you need from investors and what will it get you?
